With 11+ years of experience in Web Design and Development. I have got extensive experience in full stack web development, Microsoft Dynamics 365, Browser Extension Development and others. I am passionate with JavaScript, Typescript, React, Angular, NodeJs, PHP, etc. and of course, Open Source.

I always look for a challenging position in a dynamic environment where I can utilize my skills and knowledge to the fullest extent for the growth of the organization.

WORK EXPERIENCE

Full Stack Developer

Concourse Federal Group, USA | June 2018 - Present

At Concourse Federal Group, I am working as a Full Stack Web Developer. It's the most diversified team I have ever worked with. So far, I have worked with React, Angular, NodeJs, Microsoft Dynamics 365, Azure, etc.

My responsibility at Concourse were mainly,

- Building custom web applications for the company and its clients.
- Ensuring the quality of the code and the applications built.
- Leading the team and mentoring the new team members.

Sr. Front End Developer

CALL & SOLUTION, Bangladesh | Oct 2017 - May 2018

At Call & Solution, I was working as a Sr. Front End Developer. I mainly worked with AngularJs & Angular here.

My responsibility at Call & Solution were,

- Updating the existing web applications and maintaining them.
- Migrating the existing web applications to Angular 2+ from AngularJs.

Sr. Front End Developer

Diva Worldwide, Bangladesh / Netherlands | March 2017 - Sept 2017

Diva worldwide was probably the 2nd best company I have ever worked. I loved the nature of work and the people I worked with. I was the team lead of the front end team.

My responsibility at Diva worldwide,

- Design and develop of the world class Rich Media Ads for different multinational companies.
- Ensuring the quality of the code and the products
- Mentoring the new team members.

Full Stack Developer

Lineup Lab, USA | Sept 2014 - February 2016

At Lineup Lab, I started my career as a front end developer. I was the first employee of the company. I was responsible for the development of the company's first product, Lineup Lab. I was there from paper sketch to the first release of the fully functional product.

My responsibility at Lineup Lab,

- Designing and developing the front end of the Lineup Lab using AngularJs.
- Developing the back end of the Lineup Lab using PHP, Slim Framework.
- Establishing best practices for the development of the Lineup Lab.
