

MD OBAIDUR RAHMAN

Full Stack Developer | Delivering Scalable, Modern Web Apps Across JavaScript and Beyond

✉ theobaidur@gmail.com
📍 Dhaka, Bangladesh
🌐 theobaidur.github.io
🧰 Open to full stack development opportunities • Remote | On-site | Hybrid

I'm a full stack developer with 13+ years of experience building scalable, high-performance web applications across a range of technologies. While I specialize in modern JavaScript frameworks like React, Angular, Next.js, and Node.js, I am equally comfortable working with other stacks including PHP, Python, and C#. I believe in using the right tool for the job, adapting quickly to new technologies and frameworks.

I'm passionate about solving business problems through technology, streamlining development workflows, and delivering reliable digital products. Whether working with open-source stacks or enterprise tools, I bring a pragmatic and collaborative approach to software development.

Currently, I am open to remote full stack roles where I can make an immediate impact with scalable code and strong team collaboration.

WORK EXPERIENCE

Senior Power Platform Developer (Remote)

Modern IT, CA, USA | December 2023 - Present

As a **Senior Power Platform Developer**, I lead the **design and development** of **enterprise-grade applications** using Microsoft Power Platform and modern web technologies. I contribute to **full stack solutions** utilizing React, Node.js, Express.js, and Next.js, with a focus on **scalable architectures** and **AI-driven automation**.

My responsibilities at Modern IT include

- Architect and develop solutions using **Microsoft Power Platform**
- Build **full stack applications** using **MERN stack**, **Next.js**, and **REST APIs**

EDUCATION

Master of Computer Science

2019 - 2020

Jahangirnagar University

- Savar, Dhaka, Bangladesh

Bachelor of Computer Science and Engineering

- Implement **end-to-end encryption (E2E)** and **secure authentication** systems for sensitive business data
- Integrate **AI capabilities** to automate and enhance business workflows
- Optimize business operations through **end-to-end process automation** and **system integration**

Technologies: Power Platform, React, Node.js, Express.js, Next.js, AI Integration

Software Engineer (Remote)

Concourse Federal Group, USA | June 2018 - April 2025

At Concourse Federal Group, I **led a team of developers** in delivering innovative digital solutions for **federal clients**, primarily leveraging **Microsoft Dynamics 365** alongside open-source stacks. I played a key role in aligning **technology strategies** with client goals while **mentoring junior engineers** and promoting **best practices**.

My responsibility at Concourse were mainly

- **Led the development** of enterprise solutions using **Microsoft Dynamics 365** and **full stack technologies** (React, Angular, Node.js, Python, PHP)
- Implemented **secure API design** and **data encryption** for federal applications handling sensitive information
- Collaborated with clients to **gather requirements** and deliver **tailored technology solutions**
- Managed **deployments and hosting** across cloud platforms including **AWS and Azure**
- Championed **modern development practices** and the adoption of **emerging technologies**
- **Mentored junior developers** and facilitated **technical knowledge sharing**
- Conducted **code reviews** and maintained **high engineering standards**
- Coordinated with **cross-functional teams** to ensure **timely and successful project delivery**

Full Stack Web Developer (Freelance)

UpWork | September 2011 - Present

Working as a **freelance full stack web developer** on UpWork has allowed me to continuously refine my **technical and communication skills** while solving **real-world client challenges**.

Through **diverse freelance engagements**, I've gained **hands-on experience** with a variety of tech stacks, honed my ability to **manage projects independently**, and delivered **high-quality solutions** under **tight deadlines**. This has enabled me to remain **adaptable, self-motivated**, and deeply in tune with **client needs**.

TECHNICAL SKILLS

Core Programming & Full Stack Development

JavaScript (ES6+)	TypeScript	React	Angular	Vue.js	Next.js	Node.js	Express.js	GraphQL	PHP
Laravel	Python	Django	C#	ASP.NET MVC	HTML	CSS	Tailwind CSS	JAMstack	Serverless Architecture

2012 - 2015

University of Asia Pacific

- Dhaka, Bangladesh

LANGUAGES

Bengali	Native
Speaking, Reading, Listening	Writing,

English	Fluent
Speaking, Reading, Listening	Writing,

stackoverflow.com/users/8145467/theobaidur

NPM

npmjs.com/~theobaidur

Leetcode

leetcode.com/theobaidur

Twitter

twitter.com/theobaidur

Experienced in **JavaScript and TypeScript** for **scalable front-end and back-end development**. Skilled in building **complete web applications** using modern frameworks like **React, Angular, Vue.js, and Next.js**. Comfortable with **backend development** in **Node.js, Laravel, Django**, and modern architectures including **GraphQL, JAMstack, and serverless**. Versatile across multiple languages including **PHP, Python, and C#**.

Database Technologies

MySQL PostgreSQL MongoDB Firebase SQL NoSQL

Strong foundation in working with both **SQL databases** (MySQL, PostgreSQL) and **NoSQL databases** (MongoDB, Firebase). Experienced in **database design, optimization, and integration** — ideal for **fast-moving startup environments**.

Microsoft Technologies & Power Platform

Microsoft Dynamics 365 Power Platform Power Apps Power BI Power Automate SharePoint Model Driven Apps

Microsoft Teams Apps

Deep experience in **Microsoft Dynamics 365** and **Power Platform**, especially valuable for startups in **regulated or enterprise-aligned industries**. Built custom solutions using **SharePoint, Power BI, Power Automate, and Teams Apps**.

AI and Machine Learning

OpenAI Integration Azure AI AI-driven Development Machine Learning APIs Natural Language Processing

Integrated **OpenAI and Azure AI services** into web apps to enhance **automation, personalization, and analytics** — a **differentiator for AI-first startups**. Experience with **machine learning APIs** and **NLP integration**.

Security & Cryptography

End-to-End Encryption (E2E) AES Encryption RSA Encryption JWT Authentication OAuth 2.0 HTTPS/TLS

Data Encryption Secure API Design Web Security Best Practices

Experienced in implementing **end-to-end encryption (E2E)** and **data security** in web applications. Skilled in **AES and RSA encryption, JWT authentication, and OAuth 2.0** implementations. Strong understanding of **secure API design, HTTPS/TLS protocols, and web security best practices** to protect sensitive user data and communications.

Cloud Technologies & DevOps

Azure AWS Digital Ocean Git GitHub GitLab Bitbucket Azure DevOps Docker CI/CD Pipelines

Hands-on experience deploying applications and infrastructure on **Azure, AWS, and Digital Ocean**. Proficient in **serverless architecture, blob storage, and scaling solutions** quickly. Comfortable setting up **CI/CD pipelines and automations** using **GitHub Actions, Azure DevOps, Docker, and cloud-based workflows**.

Mobile & Desktop Development

React Native Ionic Electron Progressive Web Apps (PWA) Hybrid Mobile Apps Desktop Apps

Cross-platform Development

Built **cross-platform apps** using **Ionic, React Native, and Electron** — enabling **rapid deployment** of **mobile, desktop, and PWA solutions** tailored for **startup MVPs** and **fast iterations**.

Browser Extension Development

Chrome Extensions Firefox Extensions Edge Extensions WebExtensions API Browser Automation

Developed **Chrome, Firefox, and Edge extensions** for **productivity tools, internal automation, and user engagement**. **Published publicly** and used in-house, offering users **seamless browser integrations**.

Design & Content Management

WordPress Figma Photoshop UI/UX Design Responsive Design Content Management Systems

Skilled in **WordPress** for **fast content-driven MVPs**, along with **Figma and Photoshop** for **design collaboration and prototyping**. Experience in **UI/UX design** and **responsive web design**.

ACHIEVEMENTS

Top Rated Plus Freelancer

UpWork - 2020

Maintained a 100% client satisfaction rate for over a decade

Certification Goals (In Progress)

Microsoft, Google, and others - 2025

Actively completing certifications in Azure, Power Platform, and AI development to complement real-world experience
